1. After January 1952 the Textile Plant Orban (formerly called Antonin Bednar) in Zamberk district (P51/H20) is to be closed. Buildings of this plant will probably be used for the chemical industry.
2. The automobile plant in Kvasiny\* (051/H01) will soon stop production of two-seater cars and small delivery-vans. The automobile factory in Mlada Boleslav (051/G02) will also stop production. About 4,000 cars produced in the Mlada Boleslav plant have been left in the open, while in Vrchlabi (051/G55) about 1,000 ambulances and in Kvasiny about 500 cars have also been left unprotected. An order was issued to find stores and sheds in the border regions where these unsold cars could be stored. The Mlada Boleslav plant is to take over production of Avia cars and buses. It is to produce a jeep type terrain-car and one type of truck. It has not yet been decided what kind of production will be introduced at the plant in Kvasiny.
